Opis produktu

A CD that compiles the two EP's spawned by this up and coming, promising U.S. band so far, previously only available on digital since their late November 2021 release. Acid Birth is an enigmatic two-piece act composed of Morg (guitars, bass, vocals) and Tomb (drums, vocals) that hails from the boggy swamps of New Orleans. Accordingly, their strain of Death/Doom Metal is drenched in miasmatic heaviness, wallowing in slime and emitting a moldy odor that shall delight the most demanding palates. Death and decay finds us all. Iniquitous indulgence taunts our minds. Revel in this savage world of ours amongst the rot and filth that Acid Birth provides. Totally recommended to fans of Mortiferum, Spectral Voice, Gatecreeper, Cerebral Rot, Apparition, Wharflurch...
