Opis produktu

Formed in 2010 by IV with the intent to perform Death Metal Necromancy, the group now consists of current and former members from many notable Australian and New Zealand bands, including Ill Omen, Grave Upheaval, Diocletian, Nazxul, Ulcerate, and Vassafor, to name but a few. Their debut recording 'Prophecies of Malevolence' originally got released on CD in a limited amount of copies by the band's own label Adverse Order Music and soon after got the attention of Nuclear Winter Records who re-issued it on vinyl and also took care of their next album 'Condemnation' on CD / LP (Nuclear Winter Records / Europe, Dark Descent Records / Americas). The band's growing reputation led to a multi album deal with Iron Bonehead Productions and several live shows all over the world.

To celebrate a decade that passed since its initial release, Nuclear Winter Records is proud to re-issue 'Prophecies of Malevolence' on CD. Packed in digisleeve and featuring all new artwork / design, plus their track from the split EP with Antediluvian as bonus. All carefully remastered by VK.
